

The plan view shows a road cross-section with a total width of 10 meters. The road is divided into a 5-meter driving lane (Sõidutee) and a 5-meter pedestrian lane (Kõnnitee). The driving lane has a 2-meter left shoulder (0.5m green grass, 1.5m asphalt) and a 0.5-meter right shoulder (asphalt). The pedestrian lane has a 0.5-meter left shoulder (asphalt) and a 1.5-meter right shoulder (0.5m red grass, 1.0m asphalt). Objects are positioned as follows: a green car (G) in the left shoulder, a red car (K) and a blue car (V) in the driving lane, and a red car (W 1.1), a red car (W), a red car (W 1), and a red car (S 1) in the pedestrian lane. The road is bordered by dashed red lines representing the road edge (Tänaava maa-ala piir).
